

The King Bio Mission:

To lead the way in professional cutting edge products and procedures.

To provide safe, more corrective and curative all natural medicines with no side effects and no negative drug interactions.

To provide new diagnostic procedures to greater empower the physician to better resolve the chronic recurring and resistant problems plaguing our society.

To offer more effective and affordable health care solutions.

To empower the physician with the most effective educational tools to attain optimal health.

To achieve your utmost respect in product quality and services.

Premise:

That all people are designed to be healthy and are equipped to overcome disease.
Our focus is to equip people with the tools to overcome disease.

Values:

To love and care for the sick and suffering.

To continually seek and search for the most effective health care solutions.

To serve with honesty, integrity and purity of intent.

To care enough to make the sacrifices necessary to most positively impact our world.

WHAT IS HOMEOPATHY?

Homeopathy is a scientific system of healthcare that activates the body's own healing processes in order to cure disease naturally, gently, and promptly. Homeopathy is a natural pharmaceutical science that uses very small or infinitesimal doses of substances from the plant, mineral, and animal kingdoms to activate the body's nervous system to initiate a healing response.

The word *homeopathy* is derived from the Greek “homoios” meaning similar and “pathos” meaning suffering.

The German physician and chemist Dr. Samuel Hahnemann founded the science of homeopathy in the early 1800s. While performing research into the toxicological effects of the medicines of his time, Dr. Hahnemann discovered that a specific dilution of a substance would remove the symptoms that the substance was capable of evoking. Through numerous experiments, he advanced the theory that “likes are cured by likes,” and today it is a verified law of Pharmacology, the *Law of Similars*.

For example, if one drinks too much coffee, the mind races and prevents sleep, the nervous system becomes on-edge, and trembling may even result. A specifically prepared dilution of coffee will gently and promptly reverse these types of symptoms.

Ipecac in a large dose causes nausea and vomiting. An ill person suffering from the same or similar symptoms improves after taking a specifically prepared dilution of ipecac.

Another example is seen in the symptoms caused by being exposed to sliced onions. The eyes may burn and water profusely, and the nose may water and sneezing may occur. These symptoms produced by sliced onions are very similar to those of hay fever. As you might expect, one remedy for hay fever is the onion, specifically diluted according to exact homeopathic principles.

You will also see application of the Law of Similars in genetics, physics, chemistry, and immunology. In physics, opposite poles of a magnet attract while similar poles repel. By placing similar poles next to each other, a weakened magnet will be regenerated or restored by the *Law of Similars*.

A basic principle of solvent chemistry states that a substance will be a solvent to another substance when it has a similar type of molecular bond. It has to be either similarly polar or similarly apolar, and then like will dissolve like. Immunology, of course, crudely applies the *Law of Similars* to activate antibody responses with small doses of a similar substance that will evoke the allergic symptoms.

What are the Benefits of Homeopathic vs. Herbal and Nutritional Products?

Herbs, vitamins, minerals and food need to be broken down and so require tremendous energy for their conversion to micro-nutrients or into a form which can be used by the body. For many who are ill or are nutritionally depleted, this expenditure of energy on the cellular level is either not possible or partially possible. To apply highly concentrated nutritional supplements or herbs under such circumstances, may create even more complications such as toxicity or hypersensitivity associated with over-burdening of already stressed organs. Homeopathy avoids all such possible complications, since homeopathic medicines provide their effect through highly diluted micro constituents and pure energy.

HOMEOPATHIC PRINCIPLES

Homeopathic remedies focus on the *whole* person and the body's own natural defense systems. Homeopathy recognizes the body's built-in capability to heal itself and maintain a healthy vibrant state of well being. Homeopathy teaches us that the symptoms of a disease represent the body's own intelligent way of communicating through the sensory nervous system that it needs help. We can reinforce the body's efforts by administering very small or infinitesimal doses of a substance, which if taken in large quantities over a period of time, would produce the same symptoms as the disease.

THE LAW OF POTENTIZATION refers to the specific dilution procedure of homeopathic formulas. These specific dilution ratios with succussions or shaking are continued to various levels, called *potencies*. The lesser dilutions are known as low potencies and the greater dilutions are known as high potencies. Higher potencies act deeper into the nervous system, therefore creating a more potent effect upon the body's natural healing responses.

HERING'S LAW OF CURE – The Father of American homeopathy, Constantine Hering, M.D., was one of the first to observe specific ways that the healing process develops. He made three observations of the true healing process, which have been called "Hering's Law of Cure." The three observations are as follows:

- 1) *The human body seeks to externalize disease.* One of the miraculous functions of the body is to move disease from more serious, internal levels to more superficial, external levels. For example, during the homeopathic treatment process, a patient treated for an allergy or asthma may, during the curative process, develop a skin rash. Someone with a deeper mental or emotional condition may commonly notice an improvement in their mental or emotional condition when physical symptoms occur. Sadly, most conventional medical treatment would act to control or suppress the physical symptoms as a unique and unconnected phenomenon, thus possibly

reactivating the patient's original condition. The human body is closely interconnected mentally, emotionally, and physically, and must be managed in this way.

- 2) *Healing progresses from the top of the body to the bottom.* A person with a skin rash or arthritis over their entire body may notice relief in the upper body before the lower body. Understanding this law of healing helps the physician to differentiate a true cure from temporary relief, suppression, or a placebo response.
- 3) *Healing proceeds in the reverse chronological order of the appearance of the symptoms.* As healing progresses, a patient may sometimes re-experience symptoms that he or she previously suffered. This may occur when symptoms were conventionally suppressed or not handled properly.

In the past, many have had difficulty understanding these laws; however, the power of minute quantities is all too well established in this nuclear age. Note: See **Research Section** for documentation of this and other phenomenon on page 16.

WHAT TYPES OF DISEASES CAN HOMEOPATHY ADDRESS?

Homeopathy does not *treat* diseases, per se. Homeopathy activates the body's own healing processes at both the physical and mental/emotional levels. The range of problems for which homeopathy can be effectively used is extensive and includes first aid, acute illnesses, and all manners of chronic conditions.

HOW SOON CAN RESULTS BE EXPECTED?

In acute conditions, the appropriate remedy can act within minutes. It is common to see a child who is screaming in pain with an earache drop off to sleep one to two minutes after a dose of the appropriate remedy. Results can be slower in chronic conditions.

Roughly, for every year of illness, it may take a month of treatment and multiple formulas to receive maximum results.

Though astounding improvements often take place, do not be discouraged if instant improvements do not occur in chronic or long-term conditions. In the chronically ill and hypersensitive patient, the vitality of a person needs to be first strengthened. There may even be a slight chance of temporary worsening of symptoms. This is usually short-lived and followed by improvement.

THE BIO-ENERGETIC PARADIGM

Homeopathy functions very differently from other remedies such as herbs, vitamins, and minerals. While herbs, vitamins, and minerals work on a bio-chemical level to change or support body chemistry, homeopathy works on a *bio-energetic* level to bring balance to our higher communication networks. All body functions are controlled and coordinated through energetic communication networks such as our nervous system. Every chemical within our body has a particular charge to respond very specifically to our energetic control networks. By balancing our energetic communications with homeopathy, the roots to our bio-chemical functions can also be restored. The bio-energetic realm of life controls the bio-chemical realm of life.

We have found that the easiest and most effective way to rebuild our health is to first restore the communication networks within our body. The deeper works of homeopathy can make all of our other efforts to enhance health much simpler. In fact, homeopathy will empower our body to respond much more effectively to all our efforts in building health. As the inner integrity of our health is restored with homeopathy:

- ◆ Recurring subluxation pattern will stabilize and correct.
- ◆ Good eating habits become more effectual.
- ◆ Herbal and nutritional supplements become more effectual.
- ◆ Exercise efforts become more effectual.

- ◆ Even our efforts to manage stress and think more positively become more effectual.

As we grasp more completely the power of these healing principles, we will be able to take on a greater level of authority and control in our health. We will become more successful stewards of our bodies. We will become more effectual in our efforts to attain and maintain optimal health.

These bio-energetic principles are why homeopathic medicines can commonly provide such quick results—often within 30 seconds to just a few minutes. Once a homeopathic medicine is sprayed in the mouth, it is picked up by the sublingual nerve pathways around the tongue. The unique healing powers of homeopathy are then transmitted at the average nerve speed of 200 MPH throughout the body. Within 5 to 7 seconds, the healing and restorative messages of the homeopathic remedy reach all 100 trillion cells of our body!

Homeopathy works so deeply within the inner fabric of the human body that actual cures can take place. Even inherited problems and weaknesses called *miasms* in homeopathy have well documented cures. With homeopathy, we possess another tool to help stop the inheritance of genetic problems and weaknesses by our offspring.

NEW BREAKTHROUGHS IN HOMEOPATHY

King Bio® has developed a number of new approaches to better offer the many benefits of homeopathy in the contemporary office. These contemporary approaches include breakthroughs in both products and procedures. They are so simple that any physician can apply them successfully in every style of practice or specialty.

One of our foundational breakthroughs in homeopathy is the multi-ingredient, multi-potency formulas in our comprehensive and easy to use **SafeCare®RX** line.

Disease is much more complex today than it was one or two hundred years ago when the original classical methods of homeopathy were established. Since then, we have experienced:

- ◆ A century of suppressive therapies with modern day allopathic drugs.
- ◆ Vaccinations that have suppressed childhood diseases that were designed to build natural immunity.
- ◆ Exposure to man-made chemicals that now range into the millions.

This is why the broad spectrum **SafeCare®RX** formulas are so necessary. **SafeCare®RX** formulas are designed to work powerfully at every level of life to:

- ◆ target the underlying causes to acute, chronic and genetic conditions
- ◆ detoxify and activate our internal mechanisms for maintaining a clean and healthy body
- ◆ help restore and build a strong and healthy immune system
- ◆ help us heal mentally and emotionally
- ◆ strengthen our inner constitution which improves our overall health and quality of life
- ◆ strengthen genetic weaknesses and predispositions to disease

Especially important is our unique pure Bio-Energetically Enhanced™ pure water base. **King Bio®** is the only company manufacturing homeopathics without sugar, alcohol, or glycerin. **King Bio®** offers the purest form of medicine available.

- ◆ No side effects
- ◆ No known negative drug interactions
- ◆ No contraindication for use
- ◆ No allergies
- ◆ No sensitivities
- ◆ No taste or aftertaste

Medicine does not have to taste bad to be good. The **King Bio®** Bio-Energetically Enhanced™ pure water base high-multi potentization process makes **SafeCare®RX** formulas exceptionally strong and taste-free. This also eliminates many adverse reactions. With no offensive taste, no one, from grandchild to grandparent, will have a problem taking a **SafeCare®RX** formula.

SafeCare®RX formulas work on the whole person at all levels of life: physically, mentally and emotionally. In addition to the quick results and potential cures we've discussed, other benefits you may experience include:

- ◆ Increased vitality and alertness
- ◆ Better sleep and peacefulness
- ◆ Increased sense of physical, mental and emotional well being

Since homeopathy works on the whole person, correction of seemingly unrelated health problems can also occur. For example, you may take our sinus formula and discover your leg pain or other seemingly unrelated symptoms have also ceased.

High Potency, Broad Spectrum Homeopathics

In every dose of **SafeCare®RX**, you receive equal volumes of seven high potency broad-spectrum potencies or strengths in each ingredient 10X, 30 X, 100 X, 1M, LM1, LM2 and LM3. In general, the lower 10X potency works at the more superficial levels of bodily function, such as skin and hair health. The middle potencies 30X and 100 X work more in the realm of our glands and organs. The mental and emotional functions (and even our genetic predispositions) are best enhanced with the higher 1M, LM1, LM2 and LM3 potencies. These potency ranges have been clinically proven to provide a higher percentage of results, faster results, and a higher percentage of actual cures with minimal aggravations or healing crises. You will find that most companies only offer low potencies.

Making a homeopathic remedy is a very labor-intensive process. It actually takes 90 times the labor to make our 100 X strength as it does to make a 10 X strength and a remarkable 990 times the labor to make a 1M strength. Each potency process requires both time and labor. We at **King Bio®** find it well worth this to provide these superior results.

Compliance is a common challenge whenever it comes to doing something good for our lives. Our homes are cluttered with unused exercise equipment and have cupboards full of partially consumed health products. The least little inconvenience can easily deter us from doing what is good for us. Our medically metered pump spray makes **SafeCare®RX** formulas both easy and fun to take, thus helping us to remain diligent in taking care of ourselves. "Convenience creates compliance."

The other breakthroughs in homeopathy are the procedures we, as alternative doctors, have found to be the most effective. The greatest hurdle with homeopathy is in finding the right remedies for each individual. The procedures taught in our **Contemporary Homeopathic Enhancement Systems & Solutions™ CHES** manual will dynamically equip you with the ability to communicate directly with the body. Now you can discern which Homeopathics you need to take the health of your patient's health to the highest level.

WHY CHOOSE

?

√ **SAFE - NO SIDE EFFECTS**

There are **NO SIDE EFFECTS, no contraindications, no known reactions with other drugs, no known allergic reactions, no toxic chemical poisoning potentials and no addictive or habit forming properties.** Everyone from newborns to the elderly can safely use these medicines. **SafeCare®RX** formulas can be safely and effectively combined to compliment any procedural system, nutritional and herbal remedies, or conventional drugs and medical procedures.

√ PURE WATER BASED

Finally, a pure, water based homeopathic line with **no alcohol, sugar, or glycerin**. **King Bio®** has developed a biochemical purity in water that is 10 times purer than distilled water. Homeopathy is the purest form of health care we have found. Working with hypersensitive people for nearly three decades we have developed the least allergenic base, WATER.

King Bio® has developed a method to improve even the purest water with our patent pending Bio-Energetically Enhanced™ pure water. The uniqueness of the water molecule is what imprints the homeopathic signals. **King Bio®** strips the water of its recorded history by running it through specialized 38,000 gauss magnetic triangular tubes to literally cleanse the water bioenergetically as well. This process is similar to running your VCR tape through a magnetic cleaner, stripping it of the many times it has been pre-recorded, thus improving its new recording ability. The Bio-Energetically Enhanced™ pure water is then infused with specialized energetic frequencies to specifically enhance each individual formula. **King Bio®**'s Bio-Energetically Enhanced™ pure water is a key to the advanced success of SafeCare®RX:

- Enables **SafeCare®RX** formulas to be more resistant to possible antidotes such as low-level radiation, x-rays at airports, strong aromatics and chemicals.
- Enables us to potentize more ingredients and more potencies into a formula resulting in a much broader therapeutic spectrum.
- Provides better absorption, utilization and therapeutic potential.

√ FAST ACTING

Symptomatic improvement can often be noticed within **30 seconds** to just a **few minutes**. Homeopathy's unique absorption into the **sublingual nerve pathway** is the **fastest delivery known**.

√ EASY TO TAKE

Our **one-hand pump spray** is the **fastest, easiest, and most accurate dosage** delivery system available. **SafeCare®RX** bottles conveniently fit into a pocket or purse for easy travel. No more opening and closing bottles, no measuring, no spilling, no more fumbling with blister packs or eyedroppers, no touching, no contamination, no antidoting, no problems taking **SafeCare®RX** formulas. Once you've tried our pump spray delivery system, you will never want to go back to the old cumbersome ways of taking homeopathic remedies.

√ LONG SHELF LIFE

ALL **SafeCare®RX** formulas will retain **full potency** for a period of at least **three years**.

√ ENVIRONMENTALLY FRIENDLY

King Bio® uses recyclable bottles that are made of the highest quality of PET #1 plastic so there is no leaching into the medicine. **SafeCare®RX** formulas are ecologically designed for both **our body** as well as **our environment**. PET plastics require less energy and are more economical and ecological to make and recycle than glass. Please recycle!

√ SEVEN POTENCY POWER

SafeCare®RX formulas, on average, contain more than 16 different ingredients each made in equal volumes of 7 different potencies totaling over **100 individually made ingredients in a single formula**. This progressive formulating process provides a broader therapeutic spectrum that delivers powerful results. The **SafeCare®RX** high multi-potency process provides a **faster, higher percentage of results and actual cure**.

√ CREDIBILITY

Natural homeopathic medicines have become the first of all the natural remedies to be registered by the FDA as a drug product. **SafeCare®RX** formulas offer a safe and natural solution backed by science, clinical experience, FDA registration, and most importantly, the tests of time and adversity.

Since 1989 **King Bio®** has operated as an FDA registered natural pharmaceutical manufacturer operating in accordance with current Good Manufacturing Practices (cGMP). A National Drug Code (NDC) number has been assigned to each **SafeCare®RX** formula. Located in Asheville, North Carolina, **King Bio®** is a USA-based company dedicated to the production of safe and natural remedies without side-effects.

Latin names are used for the specific identification of each ingredient worldwide. All **SafeCare®RX** formulas are carefully prepared according to the quality standards of the Homeopathic Pharmacopoeia of the United States (HPUS). The Federal Food, Drug, and Cosmetic Act (FDCA), the Federal legislation that officially classifies and defines all drugs, recognizes the HPUS.

Solving Today's Contemporary Healthcare Problems

Homeopathy is the second most widely used system of medicine in the world. Its growth in popularity in the United States has been around 25 to 50 percent a year throughout the last decade.

This success is fueled by several factors:

- Homeopathy is extremely effective. When the correct remedy is taken, results can be rapid, complete and permanent.
- Homeopathy is completely safe. **King Bio®'s SafeCare®RX** products are water based with NO sugar or alcohol. Everyone from the newborn to the elderly and pregnant women can use homeopathy without the danger of side effects. Homeopathic remedies can also be taken with any other medication or supplements without producing unwanted side effects.
- Homeopathy works in harmony with your immune system, unlike some conventional medicines which suppress the immune system. For example, cough medicines suppress the cough reflex, which is your body's attempt to clear the lungs.
- Homeopathic remedies are not addictive- once relief is felt, you should scale back on the dosage until you no longer need the product. If no relief is felt, you are probably taking the wrong homeopathic remedy.
- Homeopathy is holistic. It treats all the symptoms as one, which in practical terms means that it addresses the cause, not the symptoms. This often means that symptoms tackled with homeopathy do not recur.

COMPREHENSIVE COMPOSITION– **SafeCare®RX** formulas are the result of the accumulated knowledge of some of the most respected homeopaths, many years of combined research, and comprehensive clinical experience. We are pleased to provide you with the following innovative formulas to meet the complex health needs of today. The quality ingredients in our formulas are prepared from substances belonging to all three realms of nature. The plant kingdom is the source of more than half our remedies. Qualified specialists harvest our plants in their natural habitat after passing a thorough botanical examination. All components are prepared in strict accordance with the Homeopathic Pharmacopoeia of the United States (HPUS) and current Good Manufacturing Practices (cGMP) standards of excellence. Components from the plant kingdom are gathered according to specific procedures. This involves harvesting a specific part of the plant at a specific season of growth; i.e., budding, flowering, etc. This process is essential to provide the therapeutic quality of **King Bio®** formulas. Substances for our formulas also come from the mineral kingdom and a small amount from the animal kingdom.

A CONTEMPORARY APPROACH– **SafeCare®RX** formulas are uniquely created to meet the needs of today's more complex and elusive healthcare problems. Due to the dramatic changes in disease patterns and our environment, the effective answers **SafeCare®RX** formulas offer are in great demand to meet today's health needs. These formulations are designed for the majority of health problems you see in contemporary practice.

SYNERGY– Our unique formulation process allows us to offer products with a greater degree of effectiveness than ordinary homeopathic remedies. Our proprietary research has allowed us to develop synergistic formulas where the total effect is truly greater than the sum of the parts.

DOSAGE: BE FLEXIBLE TO BE SUCCESSFUL!

Since our body has unique requirements, **optimal dosages can vary with each individual**. For **general use**, one adult dose **3 times per day is a 60-day supply**. Although you may start with a dosage more than 3 times a day, you will lessen the dosage as symptoms improve and finish with a dosage of less than 3 times a day. You **need not worry about excess dosing** producing any toxic side effects. The important thing is to establish the appropriate dose until results occur and vary the dose according to symptomatic change. If there are no results, gradually increase the dose frequency until symptoms begin to clear. As symptoms do begin to clear, reduce the frequency accordingly.

SafeCare®RX formulas are **designed to correct the underlying causes** behind your health problems. Depending on the conditions, if no changes occur within a few days to a few weeks:

- Try another related **SafeCare®RX** formula. Related formulas can be found in this Product Guide under each formula and in the Repertory section alphabetically.
- **King Bio®**'s free consultative services are always available to **health care professionals at 800-543-3245**.

For best results, take doses anytime between meals at least **10 minutes or more before or after eating or brushing teeth**. Whenever possible, allow a few minutes between doses when taking more than one **SafeCare®RX** formula. Bio Response Tests (BRT) can help you to discern which formulas can be taken together and which products to take separately. Please refer to our **CHES** manual for more information on Bio Response. There is no risk of overdosing. Taking more than the recommended dosage at one time will not add additional therapeutic value. What will add therapeutic value is to increase the frequency of the dose.

TOPICAL USES

In addition to internal/oral use, **SafeCare®RX** formulas can be externally applied when appropriate. Simply spray on affected areas 2 to 6 times daily until symptoms have improved. Do not spray directly in eyes. For eye conditions, close eyes and mist over and around the eyelids.

The topical doses can add a therapeutic dimension to a case that an oral dose alone may not and vice versa. **King Bio®**'s unique pure water base allows you to safely apply the therapeutic potentials of a topical dose for an immediate localized effect.

For example, you can spray over the emotional reflex points on the forehead for stress. If stress affects the neck and the stomach area, spray over these areas in addition to the oral dose. Anywhere you may have localized symptoms simply spray over those areas with the appropriate formula.

You may also spray a remedy like our **First Aid for Mind and Body™** in the air during stressful times in the office or other environments. Some users have reported additional therapeutic results with their **SafeCare®RX** remedy, such as **Weight Control™**, by placing 10 sprays in their bath water for a full body immersion of the remedy.

HOW TO USE

FORMULAS

Crisis or First Aid	Acute or More Intense Symptoms	More Persistent Symptoms

FINDING THE RIGHT FORMULAS

The *Physician's Quick Reference Manual* has a Product Guide and Repertory to help you discover the potential formulas for each individual case. The key to ultimate success with homeopathy is finding all the formulas that match the symptom picture and correct the underlying cause of disease. Homeopathy is a highly individualized healing art, and to discover its broad spectrum of therapeutic potentials, you must have a way of discerning all the remedies that support the healing process. The practitioner must have an insightful and open approach that seeks to explore more deeply all possible causes or *similimums*— products that match similar symptoms. Diligence in seeking and finding all the necessary homeopathic remedies is the key to optimal success.

Homeopathy is based on the *Law of Similars*. Whatever sounds similar to the patient's conditions should be considered. With the *Physician's Quick Reference Manual*, this unique style of homeopathic thinking will develop in you over time and testing.

This guide lists all the **SafeCare®RX** formulas and their therapeutic actions on the body. Read over the "**Indications for Use**" and "**Remarks**" sections for each product to become familiar with their therapeutic actions upon the body. While you are reviewing specific symptomatic patterns with the patient, specific formulas will come to mind to test or try. Under the "**Indications for Use**" of each product is a list of possible "**Complementary Formulas**". The complementary formulas are listed in a common priority order for consideration. This procedure is designed to help you put the pieces of health back together for each individual patient.

The Repertory offers a thorough A-Z listing of health problems with a priority list of **SafeCare®RX** formulas to consider.

Between the Guide, Repertory, Health Appraisal Questionnaire, treatment forms, and our testing procedures, you will be well-equipped to correct the great majority of chronic recurring health problems perplexing our society. With these new, contemporary procedures covered in the *Contemporary Homeopathic Enhancement Systems and Solutions™* (CHESS) manual, you will quickly develop the experience and creativity for optimal success.

The body is designed to maintain and restore health. When this inner process breaks down, health problems occur. The key to this natural restoration process is to personally find the right natural medicines for each case.

Each of us possesses a unique make-up. The underlying causes of the same health condition between two individuals with similar symptoms may be different, requiring different **SafeCare®RX** formulas. Indications for use on the **SafeCare®RX** formulas label may suggest the obvious formula for the symptoms. However, because our bodies are unique, individuals may require different formulas.

For example, John and Rick both had congestion, sneezing, headaches, and other similar symptoms. In reading the indications for use, they both felt they needed **SafeCare®RX Allergies and Hay Fever**. John received quick relief and his symptoms had greatly diminished in 12 hours, suggesting that healing was taking place. Rick didn't make the same improvement. Let's look further at the other **SafeCare®RX** formulas listed under **Allergies and Hay Fever™**. **Sinus Relief™** was listed next in order of priority. When given the **SafeCare®RX Sinus Relief™**, Rick received substantial relief within hours.

The formulas listed with each remedy will give you suggestions of other formulas that can complement your patient's healing process. Following through with this procedure is key to finding the missing pieces to your

patient's health. The degree to which you follow through will determine your level of success in overcoming the difficult or resistant problem. Bio Response testing procedures, covered in the CHES manual, provide powerful tools for discerning the appropriate formulas that your patient may require for optimal success.

The SafeCare®RX Constitutional Enhancer™ and miasm formulas can enhance your body's inner healing abilities. Consider the **Constitutional Enhancer™**, or one of the miasm formulas, along with your symptom-specific formulas for optimal results. These powerful formulas are designed to enhance the body's overall ability to heal and restore.

The **SafeCare®RX** detox formulas are another area that can connect common road blocks to the ultimate expression of health. The **SafeCare®RX** Healthy Body formulas should also be checked during the treatment process. The practitioner that focuses on the whole person will commonly apply between 5 to 15 formulas in a 12 month period treatment time frame to maximize their patient's optimal healing process.

RESEARCH IN HOMEOPATHY

Whenever critics say that homeopathy has not been thoroughly researched, we can confidently inform them that they are not familiar with the scientific literature. The following summarizes a number of double-blind studies including both laboratory as well as clinical research. Homeopathy also has a most impressive accumulation of statistics that have been acquired over the past 200 years.

In an age when medicines have a rapid turnover rate due to harmful side effects or ineffectiveness, homeopathy has withstood the test of time. As basic truths will always exist, so have the remedies of homeopathy. It should be known that in 1975, the U.S. Congress Office of Technology Assessment estimated that only 10-20% of all conventional medical practices have been shown to be efficacious by controlled trial.¹

EARLY RESEARCH– To the surprise of most, the first double-blind crossover study ever performed was done in 1906 by homeopaths. This impressive study was done concurrently in eleven different cities on 51 subjects. This particular experiment consisted of 665 pages, which contained research provings of Belladonna.²

In addition, at the turn of the century, a book was published called *The Logic of Figures or Comparative Results of Homeopathic and Other Treatments*. This book provides dozens of charts comparing disease and death rates in homeopathic versus allopathic hospitals. This also included the epidemic diseases of scarlet fever, yellow fever, typhoid, etc. The homeopathic hospitals usually had 50-80% fewer deaths, depending on the disease compared.

The British Government sponsored another early double-blind study during World War II. The experiment demonstrated that those experiencing mustard gas burns that were given homeopathic remedies experienced significant improvement in comparison to those given a placebo. A 1982 review provided further substantiation of the statistical significance of the research.^{3,4}

LABORATORY EVIDENCE– The number one criticism of the scientific community has been the "infinitesimal" nature or the dilution principle of homeopathy. Homeopaths do agree that once a remedy is diluted beyond 24X or 12C potencies, they are diluted beyond Avogadro's Number 6.02×10^{23} , which theoretically indicates that no molecules are present of the original substance. However, both laboratory and clinical results over the last 190 years have demonstrated definite effectiveness with remedies beyond this dilution.

A recent Nuclear Magnetic Resonance (NMR) study of 23 different homeopathic remedies showed that all 23 remedies and potencies tested had distinctive readings of submolecular activity, while the placebos did not. This demonstrates that homeopathy's function is not so much chemical as energetic.⁵

ANTIVIRAL

A recent double-blind study has shown the antiviral effect of homeopathic remedies. Eight of the ten remedies tested inhibited viruses in chicken embryos from 50 to 100 percent, depending on the potencies used.⁶

HEAVY METALS

The respected journal, *Human Toxicology*, published a study showing that homeopathic doses of arsenic eliminated crude doses of trapped arsenic that had been previously fed to rats.⁷

LOWERED SERUM CHOLESTEROL

Four German scientists at a veterinary college showed that homeopathic *Chelidonium* had lowered serum cholesterol when given twice a day to rabbits on a cholesterol rich diet.⁸

REDUCED LABOR PROBLEMS

British veterinarian, Christopher Day, had conducted several pilot studies demonstrating how homeopathic remedies had reduced labor problems in cattle, stillbirths in pigs, and mastitis in cattle.⁹

ANTI-CANCER

The Cancer Research Center in India found that, of the 77 mice that received a transplant in fibrosarcoma, 52 percent survived more than one year with homeopathic remedies. The 77 mice that were untreated died within 10-15 days.¹⁰

PAIN CONTROL

Scientists at a British school of pharmacy found that rodents given Hypericum were able to inhibit pain responses. Rodents were able to remain on a hot plate longer than the control group. When given Naloxone, which inhibits pain-killing endorphins, the protective effects of Hypericum were reduced, showing that homeopathic Hypericum activates endorphins when needed. These rodents were free to walk off the hot plate whenever discomfort was noticed.¹¹

ALLERGIES

Homeopathic Apis and Histamine have a significant effect on reducing the release of certain allergy-causing chemicals from basophils, which demonstrate one reason for homeopathy's positive effects on allergies.¹²

In 1994, the internationally respected medical journal, *The Lancet*, published a study by David Reilly, M.D., demonstrating the effective homeopathic treatment of allergic asthma.¹³

IMPROVED IMMUNE FUNCTION

A respected pharmacology journal showed that homeopathic Silica had a significant effect on stimulating macrophages in mice, which destroy foreign particles, bacteria, and old cells.¹⁴

RHEUMATOID ARTHRITIS

CLINICAL EVIDENCE: The British *Journal of Clinical Pharmacology* published a double-blind experiment on patients with rheumatoid arthritis. An impressive 82% of those given a homeopathic medicine experienced some relief of symptoms, while only 21% of those given a placebo experienced any similar degree of improvement.¹⁵

DENTAL NEURALGIA

Another double-blind trial was conducted on patients with dental neuralgic pain following tooth extraction. An impressive 76 % of those given the homeopathic medicine Arnica and Hypericum experienced relief of pain.¹⁶

VERTIGO and NAUSEA

The respected German *Pharmacological Journal* demonstrated a statistically significant improvement in reducing vertigo and nausea with a homeopathic combination formula.¹⁷

REDUCED LABOR TIME and COMPLICATIONS

French researchers recently completed a double-blind trial using a homeopathic formula to treat pregnant women. The study found this homeopathic formula to reduce labor time and decrease abnormal labor. The average labor time of the women given the homeopathic formula was 5.1 hours, while the placebo group was 8.5 hours. Only 11.3 % of the women given the homeopathic formula had any abnormal labor, while 40% of the placebo group had an abnormal labor.¹⁸

CHILDHOOD DIARRHEA

A study published in the May 1994 issue of *Pediatrics* showed the effectiveness of homeopathy in treating childhood diarrhea. The study, conducted by Jennifer Jacobs, M.D., was a randomized double blind clinical trial comparing homeopathic medicine with placebo in treating acute childhood diarrhea.¹⁹

GROWTH STATISTICS: *The F.D.A. Consumer*, one of our government's magazines, reported that the sales of homeopathic medicines increased 1000% from the late 1970's to the early 1980." March 1985

The Washington Post April 28, 1983, reported that the number of physicians practicing homeopathy doubled from 1980 to 1983.

The New York Times January 9, 1985, reported that the number of visits to homeopathic physicians in England is growing at an incredible 39% per year. *The London Times* March 13, 1985, noted that 48% of the physicians in England recommend homeopathy to some of their patients.

Homeopathy has received more attention in the popular and scientific press in this past year than at any other time in history. *Newsweek*, *Time*, "The Today Show," "CBS Morning News," *New York Times*, *Los Angeles Times*, *Boston Globe*, UPI, AP, and National Public Radio are but some of the media who have recently done one or more stories on homeopathy.

A recent survey of French doctors revealed that approximately 11,000 physicians use homeopathic medicines. Twenty thousand French pharmacies now sell homeopathic medicines. This survey also stated that six medical schools offer courses in homeopathy leading to a degree. Homeopathy is also taught in all pharmacy schools and four veterinary schools.²⁰

Homeopathy is growing so rapidly in France that a recent cover story of *Le Nouvel Observateur*, one of France's leading magazines, noted that President Mitterrand and six medical school deans had called for more research on homeopathy.²¹

Homeopathy is experiencing widespread popularity in Europe, but it is even more popular in Asia, especially India, Pakistan, and Sri Lanka. Homeopathy has spread like wildfire in India due to its effectiveness in treating both the acute infectious conditions and chronic maladies on the sub-continent.

Presently, there are over 120 four-to five-year homeopathic medical schools, and 100,000 homeopathic practitioners in India.²²

Homeopathy is also growing widely in South America, Mexico, Greece, Belgium, Italy, Australia, South Africa, Nigeria, and the Soviet Union.

About Dr. King & King Bio®, Inc.

Dr. Frank J. King is the founder and president of **King Bio®** in Asheville, North Carolina. **King Bio®** is an FDA registered pharmaceutical manufacturing company dedicated to research, development, and education of safe, natural, homeopathic medicines. **Dr. King** is also a member of the prestigious Homeopathic Pharmacopoeia Convention of the United States (HPCUS). Contemporary Approach to Correcting Miasms

by Frank J. King, Jr., ND, DC

What are they?

Science has shown us that we are designed to be healthy. We possess all the mechanisms resident within us to attain and maintain great health. Dr. Samuel Hahnemann, the “father of homeopathy,” discovered that susceptibilities and tendencies towards disease occur when our normal healthy mechanisms break down. The sicknesses we suffer from today are not just what we have acquired from this lifetime, but from thousands of years of inheritance passed on to us in genome or genetic code. The remarkable restorative powers of homeopathy can actually clear and correct the inherited negative tendencies toward disease in both our offspring and ourselves.

The term “miasm” was used by Hahnemann to describe the trans-generational causes of disease. The word “miasm” is defined as an obstacle to cure. Hahnemann asserted that unless the “obstacle to cure” is dealt with, the cure of disease will always be incomplete. In modern terminology, “miasm” means *diathesis or constitutional susceptibility or predisposition to a particular disease*. The deeper roots of diseases can be traced back through generations to 5 primary diseases he called *miasms*. The good news is that these miasms can be corrected and cleared with homeopathy.

The five miasms are Cancer, Gonorrhoea Sycotic, Syphilis, Tubercular TB, and Psora. Miasms alter the ideal genetic blueprint for our health, affecting our entire being, physically, mentally, and emotionally. The deeper we go in building and restoring our health to its highest levels, the greater our chances that we will discover the probability that we may actually have multiple miasms and perhaps all five miasms.

Miasms can be either acquired or inherited. One can acquire a miasm, for example, by contracting Gonorrhoea, at the age of 18 years. When treated with antibiotics, this form of suppressive therapy can cause the disease to go dormant and become active or show up later in life in the form of allergies, sinus, herpes, vaginitis, warts, tumors, jealousy, selfishness, or uncontrolled sexual desires. Hence, acquired miasms are acquired during our life.

The majority of miasms, however, are inherited. The chances of acquiring miasms from thousands of years into our family tree are much greater than what we may have acquired in our own lifetime. Inherited miasms can be active or dormant. An active miasm is when the miasm is causing a present symptomatic picture or expression related to the symptoms associated with that miasm (see the symptoms listed under each of the following **SafeCare®RX** miasm formulas as a good general guideline to go by). A person does not have to have all the symptoms to have the miasm. The best time to consider using a miasm formula is when the symptoms are present. A dormant miasm is one hidden deep within the body that is not expressing any of its possible symptoms. It is recommended not to attempt treating dormant miasms unless other testing procedures such as electro diagnostic or reflex response tests indicate the need for a specific miasm formula.

Miasms are not hard to treat with homeopathy. They will, however, show up throughout our lives, especially as we go through the healing and restorative processes during homeopathic treatment. Most people have more than one miasm. The same or different miasms can show up periodically throughout the healing process. Homeopaths have experienced how miasms exist in various layers within the body and understand that as we work at correcting disease and building health, it is like peeling away the layers of an onion. Regular homeopathic formulas work to strengthen and restore health to the body according to the symptomatic expressions of the body. When these conditions tend to recur or be non-responsive, a deeper acting remedy like a miasm may be needed to more completely correct the condition. As we continue to peel away the disease layers impairing our normal healthy expressions, we will usually discover various miasms along the way.

Each of the miasms has particular homeopathic ingredients that are synergistic to their complete elimination. **SafeCare®RX** miasm formulas use combinations of these synergistic ingredients to most

effectively correct and cleanse these miasms from our bodies. Using our unique triple potency approach, we mix each one of the ingredients into equal volumes of 10x, 30X, 200X, and 1M, LM1, LM2, LM3 potencies. These high potency formulas work deeply, to more completely help cleanse both ourselves and our future generations of these underlying causes of susceptibility to disease.

The eradication of miasms is essential to both the restoration of our health and the eradication of disease from our planet. I have practiced homeopathy long enough myself to see the genetic disease patterns in children corrected and to observe the liberation of those diseases in their offspring as well. I have witnessed this remarkable healing phenomenon in cases such as childhood obesity, allergies, breathing disorders, skin disorders, certain behavioral disorders, and in anxious or nervous people. What a wonderful reward not only to see both children and adults healed of devastating genetic or life-long health problems but to also see their children grow up free from those inherited family health problems and weaknesses.

How do you treat miasms?

Miasms are deeply matrixed—or integrated—into our inner most being from our family tree over thousands of years. Although they are not difficult to correct with homeopathy, they are not always wiped out in a single blow.

Homeopaths have shown how disease patterns from the lives of our ancestors are trapped in and throughout the layers of our lives. These layers are like clear overlays seen on global maps demonstrating how global shifts and changes in boundaries of countries have taken place over time.

SafeCare®RX miasm formulas are best used as intermediary remedies. While applying standard homeopathic and other health enhancement therapies, the need for the **SafeCare®RX** miasm formulas will arise at various times. Treating miasms can cause remarkable changes in one's health. Commonly, these changes can cause both wonderful, enlightening, euphoric experiences as well as times when more intense cleansing crises may occur, creating temporary discomfort of the eliminative or cleansing processes. Some of the commonly experienced symptoms may include emotional releases, skin breakouts, itching, fever, fatigue, bowel movement changes, breathing changes, and various forms of pain. These symptoms can be severe at times but they are also temporary and non-damaging to the body. Remember, the body is orchestrating the healing crisis and will not harm or cause any permanent damage, even though it may feel like it at times. Although the healing crisis is not always comfortable or convenient, it is essential to our optimal healing and restoration!

It is best to monitor patients closely when using the miasm formulas, and explain that there is a 60% chance of experiencing some form of cleansing response. Explaining ahead of time makes a big difference in your patient's attitude when going through a cleansing crisis. When enduring these uncomfortable times, it is much better to be praised for your wisdom than to be cursed in distrust!

Because of the possible volatility of symptoms when treating miasms, I don't recommend starting a new patient on a miasm treatment who has not had experience with natural healing or detoxification. They may not be strong enough to handle the elimination of the miasms in the most graceful of ways, especially if the patient is in a weakened state of health. I recommend addressing the primary symptoms with **SafeCare®RX** symptom-specific formulas first, along with any of the **SafeCare®RX** detox and drainage formulas. These products will help strengthen and restore the natural healing and eliminative functions of the body.

As the patient gets stronger during basic homeopathic treatment, they will be better equipped to deal with the miasm treatment. Miasm formulas are great to use when people don't respond to homeopathic treatment or reach plateaus where they seem to level off and get stuck in their health enhancement. Miasms have a tendency to show up periodically over years throughout the healing processes. Even miasms that didn't show up previously in testing may show up later during the treatment program, as more of the layers of disease have been peeled away. Either the same miasm or different miasm formulas will commonly be needed periodically over our lives. Almost everyone has at least one miasm; many people have more than one. Very ill patients can have many miasms.

Treatment with a **SafeCare®RX** miasm formula may last for a few days to a few months at a time. Dosages can vary from 2 to 6 times per day. Again, any forms of biofeedback or reflex response tests are the best guide to dosage and length of treatment and when to repeat treatment.

SafeCare®RX Constitutional Enhancer™ should be utilized similarly to the miasm formulas. The functions of the **SafeCare®RX Constitutional Enhancer™** are very similar and complimentary to the miasm formulas.

For more information on miasms and the miasmatic types, see the SafeCare®RX miasm formulas listed in our *Physician's Quick Reference Manual, Hahnemann's Chronic Diseases, Taberts's Art of Cure by Homeopathy, Kent's Lectures on Homeopathic Philosophy, Allen's Chronic Miasms, or Ortega's Notes on the Miasms* or contact us at 800-543-3245.

As practitioners, we have focused on correcting the underlying causes to disease. Using homeopathy, we can now dynamically expand this focus in the most significant applications. Homeopathy, with its vast accumulation of research and proven clinical data, can empower you to make a more significant healing impact on society.

Choosing to help people in this realm will grow your reputation as a valued authority and expert. You will:

- become more highly honored as an innovative and pioneering doctor of greater value;
- develop a more fulfilling doctor/patient bond and relationship;
- develop greater patient respect;
- have patients who will better follow your instructions and program;
- develop greater patient loyalty.

The greater the diversity of problems you help with homeopathy, from headaches to hemorrhoids, the greater the stability of your practice. And as your service to the patient becomes more substantial, their commitment to long-term wellness care becomes stronger. With a contemporary procedural system for homeopathy, you can enjoy the benefits of a high volume practice with the greater rewards of a broad-spectrum practice. Enjoy the journey!

HEALTHY GENETICS/MIASMS

Constitutional Enhancer™

Indications for Use: A natural aid for strengthening the functions of our inner systems including immune, nervous, digestive, cardiovascular, respiratory, reproductive, urinary, musculoskeletal, lymphatic, and skin. Activates detoxification. Enhances our overall health improvement efforts.

Remarks: The majority of people will test positive for this product. Consider when patient progress stalls or plateaus. Can be effective for the chronically ill or for people seeking to attain a higher level of health and life.

Complementary Formulas: Use with ALL SafeCare®RX Medicines to activate the body's inner healing abilities.

Constitutional Enhancer™ Ingredients: Aconitum nap •Arsenicum alb •Bryonia •Baryta Carb•Calc carb • Cantharis •Gelsemium •Graphites •Hydrastis •Kali iod •Lachesis •Lycopodium •Merc viv •Nat mur •Nux Vom • Phos •Phytolacca •Pulsatilla •Rhus Tox •Sepia •Silicea •Sulphur *This formula contains equal volumes of each ingredient in 10X, 30X, 200X, 1M, LM1, LM2, and LM3 potencies in a pure water base.*

CA Miasm™

Indications for Use: For fatigue, difficulty sleeping, flu, mono, fears of unknown origin, childhood disorders, and history of cancer in family.

Remarks: Consider as a support for cancer, not a replacement for standard treatment procedures. Cancer Miasm can be commonly connected to ailments associated with nursing a sick or dying loved one over time. Fears of getting cancer. Juvenile Arthritis, Juvenile Diabetes, learning disorders, mongolism down syndrome, repeating pneumonias, chronic fatigue syndrome, chronic viral infections, AIDS, moles, birthmarks, chronic insomnia with unknown cause, difficulty thinking and making decisions, stroke, whooping cough, obesity, sinus, allergies, swollen lymph glands, cysts, tumors, panic attacks, agoraphobia, low self-esteem, pernicious anemia, diabetes, tics, pale skin, blue sclera of the eyes, mononucleosis, sensitive to criticism, excessive sense of duty. Special cravings for ice cream and chocolate commonly exist.

The Cancer Miasm has two sides emotionally; on one side is low-spirited, hopeless, overwhelmed, over serious, irritable and feels they are a victim of circumstances and that their conditions will never improve. On the other side a bipolar manic type is a martyr complex where they find themselves taking care of everyone but themselves.

A unique aspect of the Cancer Miasm is its connection to ones personal finances, feeling like there is never enough money to meet their needs. The poverty complex can be significantly helped with the Cancer Miasm correction. The Cancer Miasm patient may have difficulty thinking or making decisions.

Complementary Formulas: Any formulas associated with specific symptomatic expressions.

CA Miasm™ Ingredients: Aconitum nap •Arsenicum alb •Cadmium Sulphuricum •Conium •Gelsemium • Hydrastis •Phytolacca •PSOR *This formula contains equal volumes of each ingredient in 10X, 30X, 200X, 1M, LM1, LM2, and LM3 potencies in a pure water base.*

☼ PSOR Miasm™

Indications for Use: Allergies, itching, acne, skin eruptions, eczema, psoriasis, toxemia, fears, low self-esteem and learning disabilities.

Remarks: Psora means “itch” and is considered the miasm of deficiency, affecting the bowel and skin primarily. Psora is the oldest known miasm and is referred to as the “mother of chronic disease.” Approximately 80% of the population has some component of Psora affecting them. It is the oldest and deepest acting of the miasms. As the name implies, psoriasis is connected with most skin disorders. Breathing difficulties, such as asthma, bronchitis, environmental allergies and hay fever are associated. Also, cardio-vascular disorders as well as blood sugar imbalances, such as hypoglycemia and diabetes.

Consider for people who may be highly susceptible to bad news, shock or fear. Associated with individuals who suffer from a fear of death and a generally negative personality or belief system. These individuals have unusual beliefs about food. They also suffer from food allergies, growth problems, mal-assimilation, failure to thrive, skin eruptions related to digestion, pustules, burning or stinging eruptions. Other symptoms include nausea headaches, sensitivity to cold and drafts, colitis, ringing and roaring in ears, and muscle spasms.

Psora types are timid, reserved, indifferent, intelligent, apprehensive, oversensitive, restless, easily fatigued, and may feel bottled up inside, unable to express oneself as though living in a self-imposed prison that may create anger. Psorics can experience anxiety and fear of criticism. They can be stubborn, independent, afraid to take chances and are inhibited. They may often times fail to finish what they start. They feel better lying down, scratching, and can be constantly hungry with a craving for hot foods. They have tendency to have an unkept appearance.

Psorics may worry about money even though they have plenty of it. Psora makes one worry and even dream about losing money. The cancer miasm can create financial hardship, but psora simply creates the worry.

Complementary Formulas: Any formulas associated with specific symptomatic expressions.

PSOR Miasm™ Ingredients: Alumina •Baryta Carb •Borax •Calc carb •Graphites •Hepar Sulph Calc •Lycopodium •Natrum Mur •Sulphur *This formula contains equal volumes of each ingredient in 10X, 30X, 200X, 1M, LM1, LM2, and LM3 potencies in a pure water base.*

SYC Miasm™

Indications for Use: For warts, allergies, musculo-skeletal aches, rheumatism, Candida, yeast, herpes, vaginal irritations, sinus, general inflammations of the mucus membranes, history of sexual excesses.

Remarks: This, as with all miasms, does not necessarily indicate that one has acquired this disease in their lifetime. As with other miasms, the probability is that you have inherited the miasm from generations ago. Sycotic means “fig wart.” Dr. Hahnemann, the founder of homeopathy and this miasm, observed the common connection of infectious gonorrhea with small warts over the body. Although pronounced the same as “psychotic,” it is not related.

The Sycotic Miasm is the miasm of excess relating to conditions such as drug abuse, alcoholism, greed, diabetes, and auto-immune responses. Other growths may include condylomatalata, cysts, tumors or sclerosing of organs. Consider for excess mucus secretions, whether vaginal, sinus, lung, stool or ear. Mold allergies. Negative effects from living in damp climates. Pathological growths such as warts, birthmarks, moles, ovarian cysts, fibroid tumors, etc. This is the main miasm responsible for rheumatoid arthritis, multiple sclerosis, fibromyalgia, herpes, impotence, and sterility. Peptic ulcers, colitis, early graying of hair and general slow recovery is associated with this miasm.

Mentally and emotionally, this miasm produces a skeptical, mistrustful, suspicious, non-believer. Jealousy, selfishness, exploitiveness, and careless pleasure seeking are characteristic of the miasm. Individuals suffering from this miasm can be very hard to convince of a new viewpoint or that life will ever improve.

Complementary Formulas: Any formulas associated with specific symptomatic expressions.

SYC Miasm™ Ingredients Aconitum nap •Cantharis •Gelsemium •Nat sulphuricum •Pic Ac •Pulsatilla •Sepia •Staphysagria *This formula contains equal volumes of each ingredient in 10X, 30X, 200X, 1M, LM1, LM2, and LM3 potencies in a pure water base.*

SYP Miasm™

Indications for Use: For mental and emotional sensitivities, mood changes, ulcers, cardiovascular weaknesses, alcoholism, pathological attachments to a person or idea, paranoia, family history of insanity or suicide.

Remarks: The Syphilitic Miasm is the miasm of destruction. The brain, nervous system, blood, and bone are targeted. Osteoarthritis and other degenerative deforming conditions of the body are associated. Consider for depression and suicidal tendencies, incest - desire for or as a result of; birth defects, cleft palate, nerve diseases, heart diseases, emaciation, skin, mouth or stomach ulcers, intractable pain, hepatitis, shingles, laryngitis, rapid heartbeat, craving for alcohol, and ovarian disorders.

The Syphilitic Miasm patient will have difficulty following directions for cure due to their self-sabotaging and destructive behavior. They could be cold, ruthless, and unfeeling. They bear little conscience or regard for life. They can be spiteful, hateful, revengeful, cruel, jealous, and judgmental toward others with a quick temper. Use for all forms of obsessive behavior, such as anorexia, self-criticism, and addictions. Hypochondria is not uncommon.

Complementary Formulas: Any formulas associated with specific symptomatic expressions.

SYP Miasm™ Ingredients: Arsenicum alb •Aurum Met •Baryta Carb •Hydrofluoricum ac •Kali iod •Lachesis •Merc viv •Nit Ac •Nux Vom •Phytolacca *This formula contains equal volumes of each ingredient in 10X, 30X, 200X, 1M, LM1, LM2, and LM3 potencies in a pure water base.*

TUBR Miasm™

Indications for Use: Colds, coughs, bronchitis, asthma, swollen glands, sore throats, night sweats, fears of animals, hyperactive children.

Remarks: The TB Miasm person will commonly feel exhausted, finding it difficult getting out of bed in the morning and feeling like catnapping during the day. Then at night, they may spring to life and find it difficult to sleep, experiencing nervousness or restlessness. The TB patient is very changeable, being tired one minute and restless and ready to go the next minute. Consider for children with two personalities: one sweet and loving; the other mean, hurtful, and destructive.

Chest and lung problems, such as chronic respiratory problems and pneumonia are common. Wandering pains such as neuralgias, especially of the head, arthritis can be experienced, especially with changes in weather. Kidney problems, psoriasis, cravings for alcohol, weight loss, excess hunger, eating disorders, Tourette's Syndrome, epilepsy, phobias, fear of animals, milk cravings, milk allergies and cat allergies are common. Sensitivity to air pollution, thunderstorms, barometric and atmospheric changes are common.

The changeable nature of the TB Miasm assures that most symptoms don't last long or move to another area of the body. They can be generally weaker and susceptible to seasonal ailments, usually catching whatever is going around. Although they tire with excess activity, they feel better when moving about. History of TB in the family is a good clue the miasm exists.

Mentally and emotionally, the changeable nature of TB also exists. They can get bored very easily. They like to travel. They have changeable moods and can quickly change from good-tempered to disagreeable and angry. They can be very opinionated, even on subjects they know little about and do not care if they are correct or not. The TB patient enjoys swearing and likes to get even or set people straight on matters. They may also have an aversion to work.

Complementary Formulas: Any formulas associated with specific symptomatic expressions.

Note on the

Physician's Repertory

The first product listed is the primary remedy suggested for the condition. If the individual does not test positive for that remedy, test other remedies that match the individual case personally or in the order listed under that condition. In many instances it would be beneficial to consider testing for the **Healthy Genetics** formulas along with your more obvious system specific formulas for optimal results.

The King Bio® SafeCareRX's Physician's Quick Reference Manual's Repertory is presently undergoing an update and upgrade to include new remedies and additional conditions. If you have questions in the meantime, please feel free to give us a call at 1-866-298-2740 (toll-free) for assistance.
